

S6-14

Compact Horn Subwoofer

- ✓ For high quality bass at moderate listening volumes
- ✓ Addictive horn bass sound
- ✓ Small size, easy to place
- ✓ For music, movie, streamed media, tv

casual listening

at lower listening levels
means you don't need the
capacity of the larger horns.

You will still appreciate high
quality bass reproduction, and
with smooth and dynamic
response the sense of tactile
feel of the bass will be present
even when the volume is turned
down.
